CANADIAN AERONAUTICS AND SPACE JOURNAL

Index to Volume 19

No. 1	January:	p	1-36	No. 6	June:	p	261-332
No. 2	February:	p	37-84	No. 7	September:	p	333-386
No. 3	March:	p	85-144	No. 8	October:	p	387-446
No. 4	April:	p	145-192	No. 9	November:	p	447-486
No. 5	May:	p	193-260	No. 10	December:	p	487-550

PAGE

A

ACV Icing Problems: J.R. Stallabrass and T.R. Ringer 493
ACV Research in Canada – What's Going On in the Back Room?: H.S. Fowler . . . 1
Adey, A.W. and G.N. Reed: UHF Radiometer for Remote Sensing of Ships, Sea Ice, Iceberg and the Northern Environment 528
Aerodynamic Challenges for the Faster Interface Vehicles: P.R. Shipps 53
Aeronautical and Industrial Technologies Combine to Meet the Needs of the Industrial Gas Turbine User: J.T. Purvis . 455
Aerospace in the Next Century: I.I. Glass . . 193
Aerospace in the Next Century: I.I. Glass (Cont'd) 261
AGARD Announcements 25, 74, 133, 177, 251, 315, 348, 416, 473
Airborne Spectroscopic Measurement Over Water: J.R. Miller, G.G. Shepherd and R.A. Koehler 521
Airborne Trials of a CW Laser Fluorometer for Night-time Surveillance: J. Kruus, A.R. Davis and H. Gross 534
Air Cushion Technology: The Prospects for Canadian Industry: P.A. Sullivan 37
Air Cushion Vehicle, Experience of Using the Gas Turbine Engine for the Propulsion of the Fully Amphibious: M.L. Woodward 7
Air Cushion Vehicle Hulls, A Method of Producing Aerodynamic Sideforces on: R.J. Kind 15
Air Cushion Vehicle Operation on Floating Ice Under Winter Conditions, Small: R.J. Weaver and R.O. Ramsier 497
Airfoils with External Flow Jet Flap, Investigation of Multi-Element: F. Mavriplis 217
Application of Air Cushion Technology to Off-Road Transport on the: J.Y. Wong . 17
Analysis of Passenger Acceptance of Commercial Flights having Characteristics Similar to STOL: A.R. Kuhlthau and I.D. Jacobson 405
Aspects of Investigating STOL Noise Using Large-Scale Wind-Tunnel Models: M.D. Falarski, D.G. Koenig and P.T. Soderman 61

B

Barrington, R.E., R.E. Rolfe, J.S. MacDonald and D.S. Sloan: ERTS Quicklook System at PASS 514
Bell, A., L. Braun, V. O'Donovan and G. Lo: Design of a 14/12 GHz Transponder for the Communications Technology Satellite 235
Benjamin, F.R.: Projection 130
Book Reviews:
Aerospace Propulsion: D.G. Shepherd . . 26
Contributions to the Theory of Aircraft Structures: Academic Book Services Holland 76
Dynamics of Atmospheric Flight: B. Etkin 76
Exobiology: C. Ponnamperuma 27

PAGE

Fundamentals of Aerospace Instrumentation – Vol. 5: 475
Gas Turbine Theory: H. Cohen, G.F.C. Rogers and H.I.H. Saravanamuttoo . . 319
Ground School Workbook The: B. Hicks 179
III Inter-American Conference on Materials Technology: Southwest Research Institute 77
Instrumentation in the Aerosapce Industry, Vol. 19: B. Washburn 318
Model Control Theory and Applications: B. Porter and R. Crossley 179
Optimization and Stability Problems in Continuum Mechanics: P.K.C. Wang . 475
Physics and Chemistry in Space, Volume 4. The Optical Aurora: A. Omholt . . 27
Proceedings of the Third International Conference on Numerical Methods in Fluid Mechanics Vol. I and II: H. Cabannes and R. Temam 318
Progress in Aerospace Sciences: D. Kuchemann 253
Space Physics and Space Astronomy: M.D. Papagiannis 253
Stresses in Shells. Second Edition: W. Flugge 475
Systems Analysis for Engineers and Managers: R. de Neufville and J.H. Stafford 26
Wings Over Westminster: H. Balfour . . . 541
Braun, L., V. O'Donovan, G. Lo and A. Bell: Design of a 14/12 GHz Transponder for the Communications Technology Satellite 235
Bristow, M., R.M. Measures and W. Houston: Development and Field Tests of a Laser Fluorosensor for Environmental Monitoring 501
Brown, D., L.H. Ohman and J.J. Kacprzynski: Some Results from Tests in the NAE High Reynolds Number Two-Dimensional Test Facility on "Shockless" and other Airfoils 297
Burton, M.H.: The Development of the SRN6 MK5 Vehicle Carrying Hovercraft 487
Button, D.L.: The Development of a Prototype STOL System Demonstration 241

C

Canadian Aerospace Abstracts 71, 131, 175, 248, 313, 347, 414, 471, 539
Carswell, A.I., J.D. Houston, W.R. McNeil and S.R. Pal: Lidar Measurements of Atmospheric Properties 519
Carswell, A.I. and S. Sizgoric: Lidar as an Underwater Probe 511
CASI Log. 29, 79, 135, 181, 257, 323, 351, 419, 479, 543
Casky, T.G.: Some Aspects of Optimum Design of Lift Fans 13
Changing Role of the Technical Society, The: H.C. Luttman 335
Chubboy, R.A.: Program Plan to Develop Airworthiness Standards for STOL Aircraft 289

PAGE

Communications Technology Satellite, Design of a 14/12 GHz Transponder for the: V. O'Donovan, G. Lo, A. Bell and L. Braun 235
Cross, F.R., D.F. Page and G.O. Venier: Snow and Ice Depth Measurements by High Range Resolution Radar 531

D

Davis, A.R., H. Gross and J. Kruus: Airborne Trials of a CW Laser Fluorometer for Night-time Surveillance 534
Design of a 14/12 GHz Transponder for the Communications Technology Satellite: V. O'Donovan, G. Lo, A. Bell and L. Braun 235
Development and Field Tests of a Laser Fluorosensor for Environmental Monitoring: R.M. Measures, W. Houston and M. Bristow 501
Development and Testing of a Michelson Interferometer for Reflection Spectroscopy: W.A. Gault and G.G. Shepherd . . 517
Development of a Prototype STOL System Demonstration, The: D.L. Button 241
Development of the SRN6 MK5 Vehicle Carrying Hovercraft, The: M.H. Burton . 487
Dionne, J.G.G., D. Heckman, C. Lahaye, L. Sevigny and L. Tardif: Hypersonic Range Wake Studies 279

E

Englar, R.J. and R.M. Williams: Test Techniques for High Lift, Two-Dimensional Airfoils with Boundary Layer and Circulation Control for Application to Rotary Wing Aircraft 93
ERTS Quicklook System at PASS: R.E. Barrington, R.E. Rolfe, J.S. MacDonald and D.S. Sloan 514
Experience of Using the Gas Turbine Engine for the Propulsion of the Fully Amphibious Air Cushion Vehicle: M.L. Woodward 7
Experimental Development in V/STOL Wind Tunnel at the National Aeronautical Establishment: R. Wickens, P. South, R.S. Rangi and D. Henshaw 145

F

Falarski, M.D., D.G. Koenig and P.T. Soderman: Aspects of Investigating STOL Noise Using Large-Scale Wind-Tunnel Models 61
Flight Testing of the JT15D in the CF-100: C.B. Wrong and D.R. Jermyn 155
Fowler, H.S.: ACV Research in Canada – What's Going On in the Back Room . . . 1
Fryers, W.R.: Gravity Assisted Fog Clearance 23
Fryers, W.R.: Polar Sites for Galactic Beacons 247
Further Developments in Surface Effect Takeoff and Landing System Concepts – Application to High Performance Aircraft: A.E. Johnson and W.B. Maguire . . 109

PAGE

Further Developments in Surface Effect Takeoff and Landing Systems Concepts – A Multicell System: F.W. Wilson 121

G

Gault, W.A. and G.G. Shepherd: Development and Testing of a Michelson Interferometer for Reflection Spectroscopy . 517
Glass, I.I.: Aerospace in the Next Century . 193
Glass, I.I.: Aerospace in the Next Century (Cont'd) 261
Gokcek, O. and J.H. Madden: Trade-Off Methodology for Evaluation of Design Alternatives of Air Cushion Vehicles . . 19
Gower, J.F.R.: Remote Sensing at the Marine Sciences Directorate (Pacific Region) 507
Gregory, A.F.: A Possible Canadian Role in Future Global Remote Sensing 85
Gross, H., J. Kruus and A.R. Davis: Airborne Trials of a CW Laser Fluorometer for Night-time Surveillance 534

H

Heckman, D., C. Lahaye, L. Sevigny, L. Tardif and J.G.G. Dionne: Hypersonic Range Wake Studies 279
Henshaw, D., R. Wickens, P. South and R.S. Rangi: Experimental Developments in V/STOL Wind Tunnel at the National Aeronautical Establishment 145
Houston, J.D., W.R. McNeil, S.R. Pal and A.I. Carswell: Lidar Measurements of Atmospheric Properties 519
Houston, W., M. Bristow and R.M. Measures: Development and Field Tests of a Laser Fluorosensor for Environmental Monitoring 501
Hughes, P.C.: Recent Advances in the Attitude Dynamics of Spacecraft with Flexible Solar Arrays 165
Hunter, J.A. and M.A. Stott: Simulation of a Synchronous Orbit Environment for Spacecraft Batteries 447
Hypersonic Range Wake Studies: L. Sevigny, L. Tardif, J.G.G. Dionne, D. Heckman and C. Lahaye 279

I

Investigation of Multi-Element Airfoils with External Flow Jet Flap: F. Mavriplis . . . 217

J

Jacobson, I.D. and A.R. Kuhlthau: Analysis of Passenger Acceptance of Commercial Flights having Characteristics Similar to STOL 405
Jermyn, D.R. and C.B. Wrong: Flight Testing of the JT15D in the CF-100. 155
Johnson, A.E. and W.B. Maguire: Further Developments in Surface Effect Takeoff and Landing System Concepts – Application to High Performance Aircraft . . . 109
